About

An Alliance Between Tradition & Technology.

Born in Zürich, Rudolf Guggenheim had the idea to create the “Unique GUGGENHEIM Shaving Brush” collection in 1973 and collected shaving brushes from almost every country. Ruedi had the idea to publish his very important collection in the digital and virtual world in 2022.

Digital transformation is a fundamental social education project. Guggenheim’s vision with UNIQQ is to ensure that new opportunities are offered and supported for adolescents and adults in a “digital art house”.

NFT Market

NFTs – The future of digital property.

According to NFT statistics compiled by blockchain analytics firm Chainalysis Inc, the NFT marketplace will grow to nearly \$55 billion in 2022, overtaking conventional art sales. In 2021, conventional art and antiques sales totaled \$50 billion. The closing gap can be explained by the growing popularity of NFTs and the closure of auction houses during the COVID-19 pandemic.

UNIQQ. Token

Our goal is to build a healthy and sustainable community.

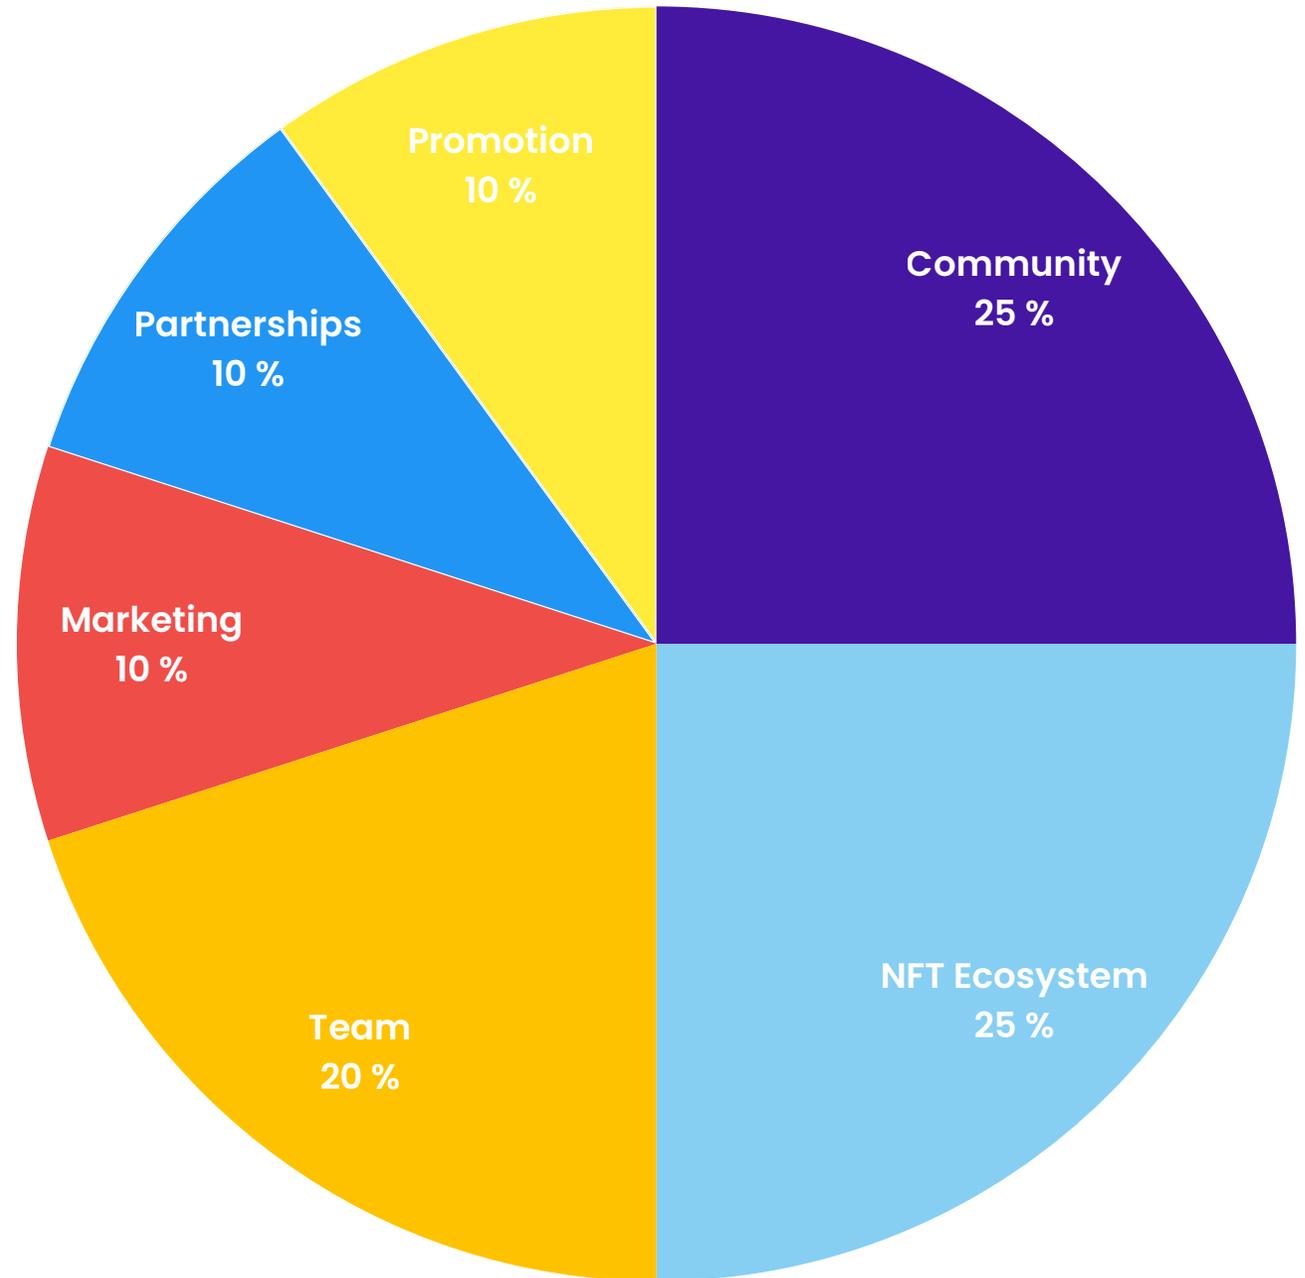

In distributing the UNIQQ. Tokens, it was important to us to achieve the fairest possible distribution at the time of market launch, without any individual holding large quantities of UNIQQ. Tokens. We have made 25% of the tokens available to our community.

UNIQQ.

Tokenomics

UNIQQ. has been distributed to focus on the community and the NFT ecosystem, with an emphasis on the development of the NFT marketplace and incentives for users.

Roadmap

The way is the goal.

The team behind the UNIQQ token is working on expanding the smart contract and developing the NFT marketplace. We will show you the progress so far and what will happen in the future. Our goal is to build a strong community together by actively marketing the UNIQQ token and our marketplace. We are working every day to further develop our ecosystem and attract new partners to our common cause.
